APPEL OF CHINESE

They Seek the Good Offices of the United States

TO END PRESENT TROUBLES.

No Final Answer Has Yet Been Made to Communication.

UNCLE SAM ALONE IN HIS POLICY.

European Governments Proceed Upon the Belief That All the Foreigners in Peking Have Been Killed and Assume a Hostile Attitude.

Washington, July 23.—President McKinley has received what purports to be a direct appeal from the Chinese imperial government to use his good offices to extricate that government from the difficult and dangerous position in which it has been placed as a result of the Boxer uprising and the ensuing hostile attitude of the great powers.

Although the exact text of the appeal made by the emperor of China to France, as outlined in the cable dispatches, has not been made known here, it is believed that the address to the president is similar in terms to that communication. In our case the communication was made through Minister Wu to the state department. Thus far a final answer has not been returned.

The French government answered at once, but that answer will not serve us. The United States government is conscientiously proceeding upon an entirely different line of policy in the treatment of the case. Unfortunately the state department finds itself alone in this, but nevertheless it is convinced that its plan is the best, and it has behind it the consoling assurance that at present all of the European governments have tacitly admitted that an error was made in the beginning in not following the common-sense advice of the United States naval commander at Taku.

The point of difference between the state department and the European governments is that the latter are proceeding upon the belief that all of the foreign ministers and missionaries and guards at Peking have been killed, and insist upon dealing with the Chinese government upon that basis, thereby assuming a hostile attitude that tends to destroy the last chance of availing of whatever friendly sentiment may yet exist among the powerful Chinese viceroys and the imperial government itself. Thus the French reply, as indicated in the four conditions laid down by M. Delcassee, sets an impossible task for the imperial government in its present straits, and tends to drive it at once to make terms with the Boxers and Prince Tuan's party.

On the other hand, our government, while not guaranteeing the truth of the advices from the Chinese government as to the safety of the foreign ministers, is willing to accept the statements temporarily, in the meantime remitting none of its efforts to get access to Mr. Conger through the use of military force if need be. By following out this policy the state department argues that it retains two chances instead of one. It may reach Mr. Conger with troops and it may also secure his deliverance through the friendly offices of some of the powerful Chinese officials, which the powers are not likely to obtain for their own people by following out their present policy. It may be stated also that the United States government has not and does not intend to relinquish any part of its claim for compensation and reparation in the ultimate settlement. Its position in that respect, it holds, will not be affected unfavorably by prosecuting its efforts to make use of the friendly sentiments of the Chinese officials.

A particularly deplorable effect of the reasoning of the European governments on this point, in the estimation of our government, is the abandonment of the idea that there is particular need for haste and for taking even desperate chances in the effort to get the international relief column through to Peking. It is true that the latest advices from Taku indicate that whereas it was originally estimated by the foreign commanders that the expedition could not be started before Aug. 15, it is now regarded by them as possible to make a beginning about Aug. 1. But the military experts here, who have been closely scanning all reports from Tien Tsin that appear to be

worthy of credit, feel that even now the way is open to Peking and that the march should begin with the force at present on the Pei-Ho, leaving the powers to bring up reinforcements to reopen the base, should the first expedition be cut off. According to the latest official reports the country around Tien Tsin is clear of hostile Chinese.

The administration is determined to keep aloft from any movement that would unnecessarily entangle the government of the United States in Chinese affairs. It, of course, must join heartily with the other powers in the effort to reach Peking, but it does not follow from that co-operation that it will be led into taking part in any bickerings or dissensions that ensue over the future of China after our people have been taken care of. It is the intention of the administration to withdraw our forces, military and naval, after the Americans in Peking have been relieved, and wash its hands of Chinese affairs, looking only to the preservation of such privileges as it has a right to retain for Americans.

Imperial Edict Issued.

Washington, July 23.—Further proof of an official character of the mistake made by foreign commanders in the attack upon the Taku forts is contained in a communication just received by the state department from United States Consul Fowler at Chefu. He has transmitted an imperial edict which was supplied to him by telegraph by the Chinese governor of Shan Tung, Yuan Shih-Kai, at Tsing-Nan, the capital of the province. It was issued on July 17 and relates to the present hostilities between China and the foreign powers. The dispatch containing the edict came to the state department in such confused phraseology that it is impossible to do more than approximately state its sense.

The edict appears to state in beginning that, owing to the trouble existing between the Christians and the populace and the subsequent seizure of the Taku forts, which aroused the military to arms, the imperial court was laying great weight upon its international relations.

The Manchu generals, therefore, viceroys and governors, are ordered to ascertain whether the merchants and missionaries of the various nations residing in the open ports are being protected, and the assertion is made that prefects and magistrates have been sent repeated imperial edicts to protect the legations. Orders also have been sent to the provincial authorities to protect the missionaries. While hostilities have not yet ceased, the Chinese officials are directed to give protection to the merchants and others of the various nations in accordance with treaties and must not fail to obey.

Views of an American.

Chicago, July 23.—John P. Roberts of Shanghai, an American civil engineer who has spent 3 years in China, and who left Shanghai last May, passed through Chicago on his way to New York to visit his old home. "Knowing the Chinese as I do," said Mr. Roberts, "I have little doubt but that all the foreigners in Peking were murdered long ago. The government is weak and the mob undoubtedly got the upper hand. I know too much of what Chinese mobs have done in the past to doubt that they murdered the foreigners. An army of 40,000 regular troops is all that is necessary to take Peking," he continued. "The stories to the effect that the Chinese have an army of 950,000 men are ridiculous. There are not more than 20,000 drilled troops in China. The rest are poorly organized and poorly armed. If they had modern arms they would not know how to use them, and they do not constitute an effective fighting force."

Li Hung Chang at Shanghai.

Shanghai, July 23.—Li Hung Chang, who arrived here on the steamer *Anping* from Hongkong, was coldly received. The native officials sent an escort of 300 armed troops, but, as the French consul objected to their passage through the French settlement, they were withdrawn, and Earl Li landed under an escort of 12 French police. Once out of French jurisdiction he was handed over to the cosmopolitan settlements police, who escorted him to his place of residence. The consuls have decided not to call upon Li Hung Chang officially.

Battery Receives Rush Orders.

Fort Riley, Kan., July 23.—Rush orders have come for the Seventh United States battery of heavy artillery at Fort Riley to proceed with all haste to the orient, calling for orders at Nagasaki. General Merriam promulgated the order in Denver. The battery was organized during the Spanish war, and since that time has been idle. The equipment embraces the heaviest caliber guns in the service, with a full complement of mortars, attended by 250 men and 10 officers.

A VESSEL CUT IN TWO.

Cunard Steamer Campania Collides With the Bark Embleton.

TWO OTHER STEAMERS IN A MIX-UP.

A Dozen Persons Drowned in the First Disaster, While Five Were Killed Outright in the Second.

London, July 23.—A dense fog hung over the British channel and the Cunard line steamer Campania, en route from New York for Liverpool, struck the Liverpool bark Embleton, bound for New Zealand, amidships, cutting her in two. The Embleton sank immediately. Seven of the crew were rescued, but it is believed the other 11 members of the ship's company, including the captain, were drowned.

The Campania had her bows stove in, but arrived safely at Liverpool five and a half hours late.

Passenger Steamers Collide.

Belfast, July 23.—In a collision outside Belfast lough, between the local passenger steamers Dromedary and Alligator, five passengers were killed and more than 5 more or less seriously injured. In many cases the amputation of legs was necessary. There were 600 passengers on board the two vessels, and terrible scenes followed the collision. It is feared that some others have been drowned.

Trial of Powers.

Georgetown, Ky., July 23.—The Powers' murder conspiracy trial was resumed at 9 o'clock. The attorneys on both sides are observing the utmost secrecy regarding their movements and it is impossible to forecast with accuracy what step they will take next, but it is said the prosecution will not allow any evidence, if it has bearing on the question as to the man who fired the shot, to come out on this.

Powers is indicted as an accessory before the fact for conspiring with others to have the murder committed, and all of the evidence as to the identity of the assassin is to be held in reserve for the trial of Jim Howard, Berry Howard and others indicted both as principals and accessories.

Fire Controlled.

Sandwich, Mass., July 23.—The great forest fire, which had been sweeping through this section of the Cape Cod district for two days, was finally placed under control at midnight. Extensive back fog and an advantageous direction of the wind accomplished the result. This was the greatest forest fire this section has ever known, and the district includes a tract of about 30 square miles. The loss has not been estimated. The fire was started by berry pickers.

Startling Suicide.

Columbus, O., July 23.—Mrs. Emma G. Graham, widow of Hon. A. A. Graham, for years secretary of the Ohio Historical and Archaeological society, committed suicide at an by hanging herself with a clothesline in the kitchen of her rooms. She left a note requesting that her children prevent her from committing suicide by sending her to the insane asylum. Her body was discovered by her son Fred.

Reward For a Necklace.

Paris, July 23.—Mrs. Potter Palmer of Chicago, one of the members of the United States commission to the exposition, advertises an offer of a reward of \$500 for information leading to the return of a necklace valued at \$17,000, which is missing. The necklace is composed of emeralds set with diamonds and other jewels, among the emeralds being one of the finest specimens extant.

Result of a Family Quarrel.

Cincinnati, July 23.—At Newton, an eastern suburb, David Brown, an hortler, killed Mark Robinson and fatally wounded Frank Murphy. The shooting was the outcome of an old family quarrel and all are said to have been drinking. Murphy came to town with Robinson and was shot first, while Brown was shooting at Robinson. Murphy is not expected to survive the night.

Duke of Arcos Will Attend.

Chicago, July 23.—The Duke of Arcos, the Spanish minister at Washington, will be in Chicago on Monday, Aug. 27. General John C. Boack, chairman of the invitation committee from the Grand Army encampment, has received a letter from the first secretary of the Spanish legation that sets aside all doubts on this point.

Managua, Nicaragua, July 23.—The government of Nicaragua has addressed a communication to the director of the Pan-American exposition declining to participate.

COUNT BONI

His Adversary in the Thorax

In a Duel.

Paris, July 23.—Count Boni de Castellane, who married Mrs. Anna Gould of New York, fought a duel with swords with Count Orlowski, in the outskirts of Paris. In the first assault Count Orlowski was wounded in the thorax and the duel was stopped by the doctors. The conditions were that the duel should continue until one of the combatants was absolutely unable to go further. The cause of the duel was a newspaper article reciting a quarrel occurring in Count Boni de Castellane's house. Count Orlowski was charged by Castellane with inspiring for the article. The seconds failed to reach a satisfactory arrangement and decided that a meeting was necessary.

Plot Discovered.

Washington, July 23.—The secretary of war has been furnished with copies of some interesting documents relating to an alleged plot against the authorities in Manilla, which were discovered in the district of San Miguel. The secret service department, under Lieutenant Charles R. Trowbridge, Eleventh cavalry, early in June stumbled upon an insurgent recruiting office, situated in an isolated locality, where the work might not be carried on without attracting notice. One room of the house was fitted up as an office and a large quantity of blank forms, bearing the headline, "République Filipina," were found. In a cupboard which had been securely fastened Trowbridge and his men discovered a large quantity of papers of recent date, the latest being dated June 7. They consisted of orders from Aguinaldo and letters of encouragement and instructions from that leader and other insurgent chiefs. A document which excited a great deal of interest was one which contained the details of a plot arranged evidently to excite an uprising in Manilla.

Killed His Wife.

Evansville, Ind., July 23.—Herman Strausser, a railroad man, shot his wife four times, killing her instantly. He then killed himself. Strausser left his wife some time ago, and she obtained a divorce on the ground of failure to provide. She then sought employment, and got a place as cook in a resort. He went to the place where his wife was employed and called her outside. Without saying a word he drew his pistol and began firing. Four shots took effect in her head and breast. After being shot twice the woman fell to her knees and expired. He then placed the weapon to his old temple and fired, falling over dead.

Suit For Damages.

Kansas City, July 23.—Judge John F. Phillips of the United States district court filed suit for \$30,000 damages against Mayor James L. Reed, Robert L. Gregory and Hugh Ward, police commissioners; John Hays, chief of police, and Patrick Bray, police captain. He asks \$20,000 for alleged false arrest, and \$10,000 for being prosecuted in police court, which he sets forth as a malicious act. The suit is the outcome of a factional war that culminated May last in the arrest of several judges of election, among them Judge Phillips, and their forcible ejection from the voting booths.

Saw a Hell.

New York, July 23.—Captain Berg of the Savannah line steamer City of Birmingham reports that when passing Sandy Hook shortly after noon Friday, bound in from Savannah, a shell which was fired from the Sandy Hook proving grounds dropped in the water between his vessel and the shore about 150 feet from the vessel, and ricochetting passed over his vessel about midships. There was great excitement aboard the vessel, at which was considered a very narrow escape, and many of the passengers were very much frightened.

Message From Remey.

Washington, July 23.—The navy department received the following cablegram from Admiral Remey, dated Taku, July 20: "Tien Tsin quiet. Latest report, Russian sources, July 13, legations at Peking still holding out. Reliability of this information uncertain. Major Reagan, Captains Noyes and Bookmiller, First Lieutenants Lawson and Schoeffel, wounded, Ninth infantry officers, and Second Lieutenant Jolly, marine corps, sick, now aboard Solace. Expect about 30 wounded men. Will then send all to Yokohama hospital."

Survey Completed.

General Alexander is receiving great attention from the government of Nicaragua.

It is understood that Aguinaldo will summon his advisers and that a reply may be expected within a month.

Filipinos here will give a banquet next Saturday in celebration of President McKinley's order of amnesty.

Troops For China.

New York, July 23.—Companies H and I of the Eighth United States infantry moved off the transport McClellan and started for Fort Snelling, Minn., over the New York Central railroad. The men will wait for the members of the regiment who are coming north on another transport, and after the recruiting of the organization to its full number will be sent to China. The two companies number about 240 men and officers. The men have been in Cuba 18 months, but they looked to be in fine condition. It was said that the other eight companies of the regiment, which are coming north on a transport, were delayed by a storm off Cape Hatteras.

Agreement Reached.

Chicago, July 23.—After months of idleness 30 contractors, many of them members of the Building Contractors' council, have entered into an agreement with the officers of the Stonecutters' union to resume work and to submit all differences which may arise to a permanent arbitration committee of 10. The agreement takes away from the business agents of the Stonecutters' union a large part of their power, as, according to its provisions, they are unable to order a strike until the members of the arbitration committee have been unable to agree and their union has voted to order a strike.

Paris, July 23.—The Berlin correspondent of *The Temps* says: "It is asserted in Berlin that the emperor of China has sent a telegram to Emperor William deplored the assassination of Baron Von Ketteler by the rebels, and declaring that the murderers are being actively sought and will be punished. He also expresses a hope that the relations of China with Germany would not suffer from this state of things."

THE JULY CLEARANCE SALE!

We announce to-day the opening of a grand Clearance Sale. It begins to-day and will last until the store closes NEXT SATURDAY NIGHT, JULY 28.

THE REASON! While we believe our patrons require little explanation of its principles or elaboration of its advantages, as a matter of such real importance, being the most comprehensive sale we ever had, it deserves serious attention. It is in such movements as this that certain characteristic Hunt principles find their best expression. It is in such powerful economic movements a store comes nearest its full duty to its public. It is good store keeping to less-in stock in July. We inaugurate this sale because our departments are full and we would rather have sales without profits than endure the business stagnation of July and feel further crowded when fall goods arrive.

THE QUALITY! Bluster and brag can perform wonders of deception. There is a prevalent and pernicious "Clearance Sale" which deludes the public into material financial loss. All things of the sort we abhor. We cannot say anything stronger of the qualities you will find here than that they are as far removed from all pestilential trash as the East is from the West. Only good goods, but cheaper than you have ever seen them.

THE ECONOMY! There is not an article priced in this ad that is not marked at cost—many are below. Detail is necessarily lost in so large a summary—it would take this page to catalogue the collection—we can only hope these hints and suggestions will stimulate your interest. If you want to save money—come and come early.

At these prices no credit can be given. All sales strictly cash.

JOS. DESHA PICKETT

Death of This Distinguished Kentuckian Friday Night.

Was State Superintendent of Public Instruction Twelve Years—A Member of the "Orphan Brigade."

A dispatch received Saturday morning from Mr. Montgomery Pickett, of Chicago, announced the death of his father, the venerable Joseph Desha Pickett, at his home near that city at half past nine o'clock Friday night.

Joseph Desha Pickett, eldest son of Colonel James C. Pickett, of Washington, D. C., was born in Mason County, Kentucky, January 6th, 1822. His mother, Ellen Desha, was a daughter of General Joseph Desha, one of the early Governors of Kentucky. He was graduated from Princeton College in 1840, and some years later received from the same institution the degree of Ph. D. He completed his education in France, making a special study of the modern languages under the eminent teacher, Ollendorff. He afterwards made a tour of the continent and extended his travels to Tunis, to Egypt, to Austria and other countries of the East. His life has been devoted chiefly to educational pursuits.

Mr. Pickett was for twelve years Superintendent of Public Instruction of the State of Kentucky. His elaborate and exhaustive report on Education received the highest commendation from the U. S. Commissioner of Education at Washington, and from other eminent educators in the East.

Mr. Pickett will always be gratefully remembered by Confederate soldiers as the founder of "The Kentucky Relief Association" during the Civil war. As a member of the famous "Orphan Brigade" he established a high reputation for courage and devotion. "He feared bullets," said General Breckinridge, "as little as he feared the shafts of the Evil

One,"—a compliment at once to his courage and his piety and as felicitous as it is just.

The interment took place at the Beasley Church, Tuckaboe, Sunday afternoon, Elder W. W. Hall, officiating at the burial service.

HIS LIFE WAS SAVED.

MR. J. E. LILLY, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." GREAT PRICE REDUCTIONS ON SHIRT WAISTS.

We are keeping the store busy during a usually dull month by our policy of great price reductions on seasonable merchandise. You will find this particularly true in our Shirt Waist stock. Profits are entirely sacrificed and cost not considered. Mark these changes:

All 50c. and 59c. Waists are now 39c.

The 75c. kind are marked 49c.

\$1 and \$1.25 Waists drop in price to 75c.

The \$1.39 and \$1.50 kind to 98c.

The above includes both colored and white Shirt Waists, all splendid styles and this season's goods. The stock is still large and well assorted—all sizes.

50c. Summer Corsets at 39c.

We bought these by the case lots—probably more than we needed. To make 'em sell quickly we give you the profit. It's a remarkably cheap corset at 50c., but it is a paying advertisement for us to mark 'em 39c. Ask to see them.

12¹₂c. Lawns at 8¹₃c

This case of Lawns just arrived. Had they come earlier they would have sold for 12 cents a yard. A fortunate purchase indeed. We gain your favor by selling something away under regular price. About forty different styles in the lot. The price 8¹₃c. a yard.

FATAL SHOOTING.

Charles Skinner Killed Saturday Night by
Policeman R. P. Thompson—It Was
a Case of Self Defense.

Charles Skinner was shot and fatally wounded by Policeman R. P. Thompson about 11:30 o'clock Saturday night near Newman's livery stable on Wall street.

Shortly before the tragedy, two men came up Wall street and entering a saloon stated that a couple of men had just tried to hold them up and get some money for liquor. Mr. Thompson was near the door and heard the remarks. After making some inquiries he and Henry Dinger started down Wall to look for the parties. They soon met Dave and Charles Skinner.

Mr. Thompson asked the two some questions and then, as they were rather boisterous, told them they had better get off the street, or he would have to arrest them. They refused to listen to his advice, and he placed Dave Skinner under arrest and turned him over to Mr. Dinger. Skinner ran, however, and escaped.

In the meantime Mr. Thompson had also arrested Charles Skinner, but the latter was resisting and the two had quite a scuffle, the officer finally striking Skinner with a "billy."

"You're rather handy with that club; I'll get even with you," angrily exclaimed Skinner, and jerking loose from the officer and Mr. Dinger, who was assisting Mr. Thompson, Skinner ran out in the street and stooped over as if to get a rock. He then turned and started towards the officer, Mr. Thompson or derring him back.

As he approached, Skinner pulled something from his pocket. This afterwards proved to be only a bottle partly filled with whisky, but it was a fatal move on Skinner's part, because in the dim light Mr. Thompson and Mr. John Dersch, who had approached, both concluded it was a pistol.

Mr. Thompson ordered Skinner to stop several times, but the man again refused to heed the warning. The officer at last fired one shot, aiming low. This did not stop Skinner, and the officer again fired, the ball, a 38-calibre, entering near the left nipple and passing entirely through the body.

The first shot had passed through one of his legs near the knee.

Outwardly Skinner showed no evidence of being fatally wounded, and Mr. Thompson and Mr. Dersch both thought the shots had not taken effect. Mr. Dersch advised Skinner to go on with the officer and all three started up Wall street. After walking about fifty feet Skinner suddenly sank to the pavement, and a hurried examination showed he was dead.

The body was later removed to Means' undertaking rooms where Coroner Wood held an inquest Sunday, the jury rendering a verdict that the shooting was done by Mr. Thompson in the discharge of his duty as an officer and in self defense.

Skinner was about thirty years old, single, and was a son of the late John Skinner who was a foreman in the cotton

mills a number of years. Of late years he had lived in Cincinnati with his mother, but came here a week or so ago as an employee of the Greenwald foundry of Cincinnati, to assist in putting in a new engine at the electric plant. His body will be buried to-day or to-morrow from Means' undertaking rooms, Rev. J. W. Porter conducting the service.

Mr. Thompson is one of the most faithful and conservative members of the police force. All who know him feel he would not have resorted to the use of his pistol had he not believed his life was in danger. He went before Judge Newell Sunday afternoon and gave bond in the sum of \$1,000 to appear for his examining trial, Messrs. T. A. Davis, John Tel and John H. Dersch going on his bond. The case is set for 2 o'clock this afternoon.

OUR NEW HOME.

The Bulletin is now safely housed in the Handsome Glascow Building, corner Second and Sutton.

Moving is a disagreeable job at any time, but especially so when the temperature is near the 100° notch and hows fall almost hourly.

The latter conditions prevailed when on last Wednesday morning the work of moving the BULLETIN into its new quarters was commenced by Mr. I. M. Lane and a force of hands. In the rain and heat the unpleasant task was completed, and while things have not all been "straightened up" and arranged, and will not be for some time to come, yet we are safely housed in our new home. When everything has been arranged, but few papers in the State can boast of handsomer and more pleasant quarters than the BULLETIN. After a suspension of the EVENING BULLETIN of three days, we to-day resume its publication, and it will be out on time regularly hereafter.

The elegant new Glascow Building occupies the southwest corner of Second and Sutton streets, fronting forty feet on Second and about sixty on Sutton street. It is a three-story brick, with stone trimmings. The foundation was laid in the fall of 1899. In the spring of 1900, the work was resumed and has just been completed.

The corner room on the first floor, 18 feet 4 inches by 59 feet 6 inches, is occupied by the First National Bank. The floor is laid in marble, and the bank has as elegant and as pleasant quarters as can be found in the city.

The stairway to the second floor has its entrance from Second just west of the banking room, and west of this entrance is a room 20 feet 4 inches wide and 40 feet deep, occupied by the Maysville Water Company and by Pearce & Dye, insurance agents, as an office. In the rear of this office is the "consultation room" of the First National Bank.

The entire second floor has been leased by the BULLETIN, the office and editorial room being in the front room on the corner. West of this there is another room that will be sublet for office purposes. In the rear of these offices is the press and composing room.

The third floor has been fitted up as a lodger room and will be leased by one of the secret orders of the city.

The Glascow Building is owned by Mr. A. R. Glascow and is one of the handsome additions to Maysville's business houses erected in late years.

MARY, youngest daughter of Mr. and Mrs. F. M. Harover, of Manchester, was married last week to James Walter Lang, a merchant of that place. The bride has relatives in this city.

Vanderbilt, the young millionaire, who, Friday, made a flying trip from Newport to Boston in his automobile, was arrested by Park Policeman Bernard O'Neil for violating the Blue Hill park reservation law concerning the speed of vehicles. Mr. Vanderbilt was taken to the station here, and after about one hour's delay a bail commissioner from Quincy appeared, and Mr. Vanderbilt was released on \$25 bail. In court a fine of \$15 was imposed, which was paid.

The ten-year-old daughter of Captain and Mrs. William L. Marshall, who was visiting in the county with her father last week, had the honor of having a composition, written entirely by herself, selected by the School Board at her home to send to the Paris Exposition.
